## PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience developing full-stack and AI-based applications. Strong foundation in **Java, Basics Python, React.js, Spring Boot, and MySQL**, with practical experience in authentication, role-based access, job management, and AI-powered applications. Seeking an entry-level Software Developer / Java Developer opportunity to apply problem-solving and development skills in real-world projects.

## EDUCATION

**KS Institute of Technology, Raghuvanahalli, Bengaluru, Karnataka** **2023 – 2027**
**B.E. – Computer and Communication Engineering (CCE) | CGPA: 7.2**

**RNS Pre-University College, Uttarahalli, Bengaluru, Karnataka** **2021 – 2023**
**PUC | Percentage: 70%**

**Our English High School, Banashankari, Bengaluru, Karnataka** **2011 – 2021**
**10th Grade | Percentage: 60%**

## PROJECTS

**RECRUIT AI – AI-Powered Recruitment Platform**
**Technologies:** Java, Spring Boot, React.js, MySQL, JWT, REST API

- Developed a full-stack recruitment platform with separate **Student and Recruiter roles** and JWT-based authentication.
- Implemented recruiter **job creation, viewing, updating, and deletion**, along with student job browsing and applications.
- Built application management with **accept/reject status tracking** and recruiter applicant management.
- Integrated **Spring Boot, MySQL, and React.js** to provide an end-to-end recruitment workflow.
- Developed AI-based resume analysis functionality using **FastAPI**, including resume data extraction, skill identification, resume scoring, and job matching.

**OMNIMESH AI – 2D Sketch to 3D Mesh Reconstruction using AI/ML with AR & VR** *Aug. 2025 – Dec. 2025*

- Developed an AI-powered web application for reconstructing **3D mesh models from 2D sketches** using deep learning and computer vision.
- Implemented a two-stage AI pipeline using **ResNet50, PyTorch, and generative AI models** for 3D reconstruction.
- Built a **React + FastAPI** application with real-time 3D visualization using **Three.js and WebXR**.
- Deployed the application on **AWS with GPU acceleration** and implemented model export in OBJ and STL formats.
- Worked with multimodal datasets including **TU-Berlin, ShapeNet, Sketchy, and ModelNet**.

## TECHNICAL SKILLS

**Programming:** Java, Basics Python
**Frontend:** React.js, HTML, CSS
**AI/ML:** PyTorch, CNN, ResNet50, OpenCV, ControlNet
**Cloud & Tools:** AWS EC2, Git, GitHub
**Backend:** Spring Boot, REST APIs
**Database:** MySQL, SQL
**3D/Web:** Three.js, WebXR,
